Adnan Rashid DGM & Head of SME	 19/02/23
Syed Javed Noor Deputy Managing Director	

Background

Since inception of SME Division in IDLC Finance Ltd, portfolio of SME loans experienced substantial growth in last 16 years. Now, IDLC Finance Ltd is also considered as one of the leading SME Financiers of the country. Considering market demand, the portfolio is expected to grow by manifolds in coming years. In order to ensure sustainable and quality portfolio growth, there is no alternative other than quality financing and strong monitoring. Therefore, it is important to define areas of businesses for branches and sales forces, to ensure proper market feedback and information at the time of financing and also proper post disbursement monitoring.

Guidelines for Area Demarcation Policy

Core Area: Refers to areas with boundaries incorporated by distance, number of clients & existing portfolio size. Here, distance of business hubs are situated close to the branch, number of clients and portfolio size must be greater than nearby branches. In Core Areas, designated branches can offer all types of products to their existing & prospective customers. Other branches (Only Dhaka Metro) can penetrate in core area subject to secured products (Registered Mortgage, CVF, Lease, and fully Cash security backed Products) & positive consent from designated branch.

The concept of Core area can be illustrated by following example: Paltan is the core area for Dilkusha Branch & New Market is the core area for Elephant Road Branch.

Grey Area: Refers to areas with boundaries incorporated by distance, number of clients & existing portfolio size. Here distance of business hubs from nearby multiple branches are quite close and sizable number of clients & portfolio size are booked by multiple branches. Designated Branches penetrating in grey areas can offer all types of products to their existing & prospective customers.

The concept of Grey areas can be illustrated by following example: Bangshal is the grey area for both Imamganj & Dilkusha Branches.

Financing outside Core & Grey Areas for Dhaka Metro Branches: Branches can book customers situated outside core & grey areas with positive consent from core branch & only offer secured products (Registered Mortgage, CVF, Lease, and fully backed by Cash security Products).

Financing Existing Customers, Concern of Spouse and Concerns of Family Members: Branches can refinance their existing customers (live contracts or refinancing within 3 months of closing of contracts) situated at Grey and outside Core & Grey Areas without positive feedback from designated branch.

Example: Mirpur Branch financed ABC Traders & their family members situated in Uttara which is the Core area for Tongi Branch. In that case, Mirpur branch will refinance ABC Traders without consent from Tongi Branch.

Approaching same client from Multiple Branches in Grey Area: In that case, earliest Lead approved branch will be eligible for booking the client considering other policies of area demarcation policy are compiled.

Factory Distance for Branches of Dhaka & Chattogram Metro: Corporate office or main sales center must be situated within core or grey area. Factory location should not be more than 100 km radius from the applying Branch. Furthermore, factory location should not cross Jamuna River (Up to Tangail/Gazipur/Mymensingh), Padma & Meghna River (Up to Munshiganj/Cumilla) for Branches of Greater Dhaka and factory location should not cross Mirersharai for branches of Chattogram. Branches can offer all products except unsecured to their prospective & existing customers for distantly located factories, subject to positive feedback from the designated branch where the majority of investment is situated.

Provision for Policy Deviation: Policy deviation is highly discouraged. However, exceptional deviation of any policy related issues will be decided by Head of SME.

Summary of Policy Checklist

Sl	Category of Area	Positive Feedback from Designated Branch	Secured Product (Registered Mortgage, CVF, Lease, Fully Cash Security Backed Products)	Partially Secured/Sachal Product	Unsecured Product
1	Core Area	N/A	√	√	√
